Measuring tips

Body Measurements: All height measures are linear rather than contoured measures.

Ostomy Opening: If an opening is required, it is recommended to fit the garment first, mark the position required, then return garment to factory for finishing.

Panty Brief: Please include left and right proximal thigh circumference.

Leg measuring tips

Use **Teal** tape for FULL LENGTH lower limb measurements

Pleat instructions

When pleating the last tape, measure the distance between the pleated tape and its neighbour from mid point to mid point (see diagram). Measurements must be recorded in centimetres only.

Reading the tapes

Always read along the straight edge and in direction of arrows as indicated below.
