All measurements taken with no tension and in centimetres only.

## Design Options

Standard zip closure

Ear reinforcement

Chin extension collar

Lip strap

Zip - hair protective covering

Eye reinforcement

Nose contouring

Ear pressure flap

## Measuring tips

### Face mask & chin strap instructions

- Use Jobskin retractable tape measure for circumferences.
- Use Jobskin Handycard to take linear measures.
- Measure 4 is easiest with the Handycard and a ruler. Position the ruler under the chin, then measure with Handycard from lower lip to the chin (where ruler sits).

### Step 1: Select garment style

**Step 2:** Measure patient following the numbered measurements under the picture of your chosen garment style

### Step 3: Complete body measurement grid

- Include patient photos with order if possible
- When multiple head and neck garments are required, initially order one only to ensure accurate fit, then reorder
- As standard garment will be supplied without ear holes cut. It is recommended to fit the garment first, mark the position required, then return garment to factory for finishing.
